PROFILE

Master of Science in Epidemiology with experience in analyzing a broad range of public health topics. Motivated data analyst skilled at statistical analysis and certified in advanced SAS programming.

EDUCATION

Master of Science in Epidemiology May 2015

Johns Hopkins Bloomberg School of Public Health (JHSPH), Baltimore, MD (Grade: 4.0/4.0) Advisor: Dr. Elizabeth Golub

Concentration: General Epidemiology and Methodology

Certificate: Pharmacoepidemiology and Drug Safety

Bachelor of Science in Biotechnology July 2013

Shanghai Jiao Tong University, Shanghai, China (Grade: 3.8/4.0)

HONORS AND AWARDS

The Delta Omega Public Health Honor Society, Alpha Chapter May 2015

AAAS/Science Program for Excellence in Science, American Association for the Advancement of Science May 2015

Dorothy and Arthur Samet Student Support Fund in Epidemiology, JHSPH May 2015

Master's Tuition Scholarship, JHSPH Sept. 2014

WORK EXPERIENCE

Research Data Analyst June 2015-Present

Department of Epidemiology, JHSPH Supervisor: Dr. Gypsyamber D'Souza

Lead data analyst for three observational studies. Responsible for data integrity, variable programming, database construction and management, development of analytic plans, data analysis, and manuscript drafting.

- Develop and modify statistical analysis plan (SAP) to meet the study design and objective in the manuscript and proposal
- Perform statistical analyses according to SAP:
 - Descriptive statistics
 - Comparison testing: Chi Squared test, Fisher Exact, Cohen's Kappa statistics, Spearman rank correlation
 - General linear models: logistic regression, analysis of variance (ANOVA)
 - Survival analysis: Kaplan-Meier (KM) method, log-rank test, proportional hazards model (Cox model)
 - Longitudinal data analysis: Generalized estimating equations (GEE) method, mixed model, spaghetti plot
- Create and validate tables and figures in publication-quality form summarizing the results of statistical analyses
- Perform data management-related programming including organizing complex multi-infection multi-visit data, data cleaning and merging, database and variable construction
- Develop and implement quality control plans to identify, assess, and resolve inconsistencies within and across data
- Write statistical sections and prepare written interpretation of analyses for study reports and publication
- Manage database and coordinate data logistics across four study sites with over 400 participants nationwide
- Collaborate with investigators and staff and provide consulting support from epidemiologic and statistical points of view

Research Assistant June 2014-May 2015

Department of Epidemiology, JHSPH Supervisor: Dr. Gypsyamber D'Souza

- Conducted survival analysis to investigate the natural history of oral HPV infection among a cohort of young adults
- Performed cross-sectional analysis to assess patient experience and knowledge of oral HPV infection
- Generated and maintained tracking logs for participant vital status and sample collection at each visit of a cohort study
- Designed table shells and created tables to demonstrate study results that are clear and easy to read

Research Assistant

July-Nov. 2014

Women's Interagency HIV Study (WIHS) Data Management and Analysis Center (WDMAC) Supervisor: Dr. Elizabeth Golub

- Proposed specific research aims, and hypotheses and wrote a concept sheet proposal
- Communicated with investigators and developed statistical analysis plan to address identified research aims
- Assessed exchangeability in a large multicenter cohort study by reviewing eligibility criteria over four enrollment waves
- Performed statistical analyses to estimate the HIV incidence rate, and to identify the longitudinal pattern of target variables

Teaching Assistant

June-July 2014

Principles of Epidemiology (340.601.11)

Instructor: Dr. Lechaim Naggan

Graduate Summer Institute of Epidemiology and Biostatistics, JHSPH

- Led discussions on selected public health topics (50 students) and held daily office hours to answer student questions
- Member of instructor and teaching assistant team meeting weekly to coordinate teaching

Zhang Y, Wentz A, Jacobson L, Weber K, Strickler H, Wiley D, Reddy S, Minkoff H, Burke R, Flowers L, Margolick J, Cranston R, Sugar E, Kluz N, Youngfellow R, Gillison M, D'Souza G (2016). Differences in Oral Human Papillomavirus Prevalence by Age and Gender. (In Preparation)

PRESENTATIONS

Zhang Y, Waterboer T, Pawlita M, Burk R, Wiley D, Minkoff H, Reddy S, Jacobson L, Margolick J, Cranston R, Strickler H, Sugar E, Weber K, Gillison M, D'Souza G: HPV16 E6 Seropositivity Elevated in Subjects with Oral HPV16 Infection. *Poster at the 15th International Conference on Malignancies in AIDS and Other Acquired Immunodeficiencies*. Oct. 2015.

Zhang Y, Wilson TE, Adedimeji A, Merenstein D, Milam J, Cohen J, Cohen M, Golub ET: The Impact of Illicit Drug Use on Antiretroviral Therapy (ART) Adherence among HIV-Infected Women in the United States. *Oral presentation at the 48th Annual Meeting of the Society for Epidemiologic Research*. June 2015.

CERTIFICATES

SAS Certified Advanced Programmer for SAS 9 (License AP016412v9)

Feb. 2016-Present

SAS Certified Base Programmer for SAS 9 (License BP056760v9)

Feb. 2016-Present

SELECTED COURSES

Epidemiology Methods, Statistical Methods, Analysis of Longitudinal Data, Multilevel Statistical Models, SAS Statistical Package, STATA Programming, Survival Analysis, Causal Inference in Medicine and Public Health, Public Health Surveillance

PROFESSIONAL DEVELOPMENT

Computer Skills: STATA, SAS, R, Origin, Microsoft Office Suite, Microsoft Office Access, REDCap

Membership: Delta Omega Public Health Honor Society (2015-present), American Association for the Advancement of Science (2015-2017), Society for Epidemiologic Research (2015-2016), Chinese Public Health Forum (2014-present)

Languages: English and Mandarin
